Helping the best and the brightest stay that way.

Over the years, the Huntington County Community Foundation and the Lilly Endowment Community Scholarship Program have teamed up to help raise the level of educational attainment in Indiana. By providing exceptional Huntington County students full tuition and required fees for four years to any accredited Indiana college or university, public or private, we're working to keep the best and the brightest right here at home.

In addition to the Lilly Endowment Scholarship recipients, the Foundation is truly honored to help numerous other young people prepare for bright prosperous futures as they continue their educations at the college and university level. It's our goal to act as a bridge between generous contributors with an interest in continuing education and the young people upon whom the future of our communities and our country depends.
